APPLICATION OF TOLERANCES

§ 51.2755 Application of tolerances.

The tolerances provided in these standards are on a lot basis and shall be applied to a composite sample representative of the lot. However, any container or group of containers in which the peanuts are obviously of a quality materially different from that in the majority of containers shall be considered a separate lot, and shall be sampled separately.

DEFINITIONS

§ 51.2756 Similar varietal characteristics.

Similar varietal characteristics means that the peanut kernels in the lot are not of distinctly different varieties. For example, Spanish type shall not be mixed with Virginia type.

§ 51.2757 Whole.

Whole means that the peanut kernel is not split or broken.
